## Gutter Topper Stands Up to Mother Nature

**Gutter Topper Comes in a Variety of Colors to Complement Your Home's Roof and Trim Color**

Here in the middle of the country we get it all – storms that break off twigs and small branches, showers of bright leaves in autumn, heavy rain and snow. All these weather conditions work together to wreak havoc on your home's [gutter system](#).

### Bad Gutters Cause Big Problems

[Gutters](#) clogged with leaves, twigs and bird nests don't carry water efficiently, allowing rainwater to drip down the side of your house toward the foundation. This can contribute to having excess moisture in your home's basement. Clogged gutters can also lead to rotten fascia boards, soffits and trusses. They can even cause soil erosion and irreversible water damage to your home when runoff isn't carried away from your house.

### Smart Design

**Waddle Exteriors' [Gutter Topper system](#)** helps prevent Mother Nature from clogging up your gutters and downspouts. The Gutter Topper uses water's natural surface tension to direct rain into the trough of the gutter, while leaves and debris remain on the flat surface on top of the gutter.

### Maintenance Free Beauty

With no debris allowed inside the gutter, the [Gutter Topper](#) system is designed so you will never have to clean your gutters again. Don't put yourself at risk every spring by standing on a ladder trying to clean out your gutters! Gutter Topper comes in a variety of colors to fit every home design.

**For a Limited Time - Get 75% Off Labor and a Free Gutter Cleaning!**

[Contact Waddle Exteriors today](#) to arrange for one of our experts

**"Thank you, your installer was effective and thorough. Gutter Topper appeared to work well in recent rain. Thank you."**

## Onions on the Grill

Warmer weather marks the start of outdoor grilling season. We're ready to get out in the backyard to light the charcoal or turn up the gas! Join in the spirit with this easy recipe for onions grilled in foil packets. This makes a delicious side dish with a good steak!

### Ingredients

- 4 large sweet white or purple onions
- 1/2 cup butter or olive oil
- salt and pepper to taste
- if desired, chopped fresh herbs such as basil, chives, oregano, rosemary, sage, and thyme

### Directions

Peel onions and remove ends. Cut each onion into thick slices. Place 1/2 of each onion in a piece of aluminum foil, inserting a

now because for a limited time you can get **75% off labor plus a free gutter cleaning!**\*

\* Restrictions apply. Offer not applicable on prior purchases. Contact a Waddle Exteriors representative for full details.

## The Big Spring Clean

Spring cleaning isn't the absolute necessity it once was. In the days before electricity when fireplaces were used for heating and candles and oil lamps were used for lighting, soot and ash would build up on surfaces throughout the house. When the weather became warm enough to open the windows, the inside of the entire house was washed.

Although we don't have soot to wash off our walls nowadays, something about spring sunshine does make you see every dust-bunny and cobweb we seemed to have missed noticing all winter! Schedule a weekend for the "big clean" and recruit family members to help so that everything will get done faster.

### What Makes This the "Big Clean?"

The Spring cleanup is the "Big Clean" because it's the time to take everything off shelves, tabletops and dressers to dust. It's also time to get to all the places you've been neglecting throughout the year, including ceiling fans, above kitchen cabinets, and baseboards and doorways. Move furniture away from walls and clean underneath. Vacuum seat cushions and sofa pillows (and don't forget to check for spare change underneath the cushions!). If your vacuum has an upholstery brush attachment, it can be used to vacuum dust from lampshades, draperies and even window screens.

### Check for Damage

Since you are already seeing everything up close as you're cleaning, go ahead and look for things that need to be repaired while you're at it. In the bathroom and kitchen look for worn grout between floor tiles. A small crack in the grout or caulk can lead to an expensive repair later. If necessary, re-seal as soon as possible.

Look for peeling and chipping paint around window or door frames, which can indicate areas where moisture has come into the house. Seal any open areas between the frame and the wall to keep out water, which can deteriorate building materials. Look for stains on rugs and upholstered furniture and clean according to the care label.

Although all of this seems intimidating and a lot of hard work, in the end you and your family will breathe easier for it and have a healthier household! So crank up the tunes, pass out the dust-clothes and get to work!

of olive oil between the slices. Season with salt and pepper to taste, and fresh herbs, if desired. Close foil around onion. Repeat with remaining onions.

Set foil packets on the lower rack of a gas grill or directly on top of hot coals. Cook for about 30 to 35 minutes.

TIP: Put the packets on the grill when you light it. This will provide a good head start from the rest of your meal, giving the onions time to cook through and caramelize!
